Practical Life Tidbits

Safe Driving in Heavy Rain

Drive a clean car in good condition.

- Once a month, clean the outsides and insides of windshields and windows.

Know the roads.

- Take a moment to consider your route. Avoid low-lying bridge underpasses or past ditches prone to flooding. Take the freeway instead.

Switch on lights, not brights.

- Brighter lights reflect off wet surfaces.

Slow down!

- Leave at least five seconds of following distance between you and the car in front.

Don't get in too deep.

- If water is covering the markings on the road, it's too deep to drive on.

Steer where you want to go.

- Going too fast and hydroplane, turn the wheel in the direction you want to go. It may take 3 to 5 adjustments to get back on course.

Hold off on unnecessary trips.

- You stay off the road in heavy snow, it's okay to stay home in heavy rain.

For more tips on driving in heavy rain and other extreme weather, check out the National Safety Council.

Mission Statement

Our mission is to perpetuate the gospel of Jesus Christ (the good news of the death, burial and resurrection of our Lord and Saviour). We want to proclaim these glad tidings to all, to provide a clear and direct route to God, to prepare all that will believe and receive for the much anticipated great and glorious return of our Lord.
